Our [Morning Preschool Program](#) and [Afternoon Preschool Program](#) are each a multi-aged group of 17 children from 3-5 years old. Our programs offer social and academic exploration in a caring and nurturing environment. We expose our early learners to a curriculum that engages them in active discovery, and we strive to provide a comfortable environment where children are able to explore, create, and grow through a “hands-on” approach to learning. **We individualize learning for each child to meet their developmental levels.**
